

SUBMISSION GUIDELINES

The Journal of Wildlife Rehabilitation publishes articles by international authors who write about all aspects of wildlife rehabilitation. Examples of common topics include research, wildlife veterinary medicine, emerging diseases, nutrition, capture techniques, handling, housing, administration, fundraising, volunteer management, center building, caging construction and design, etc. The Journal also publishes case studies, success stories, rehabilitation notes, useful techniques and other shorter features.

Guidelines for Authors

All submissions to the Journal of Wildlife Rehabilitation are evaluated by the IWRC Publications Committee. Accepted articles are subject to a peer review process. The Journal editors make every effort to assist new authors. The Journal of Wildlife Rehabilitation is an English language publication; authors whose first language is not English may receive assistance.

Policy

Original manuscripts on a variety of wildlife rehabilitation topics (e.g., husbandry and veterinary medicine) are welcomed. Manuscripts that address related topics, such as facility administration, public relations, law, and education are invited as well. Associate editors and anonymous reviewers, appropriate to the subject matter, evaluate each submitted manuscript. Concurrent submission to other peer-reviewed journals will preclude publication in the Journal of Wildlife Rehabilitation (JWR). The International Wildlife Rehabilitation Council (IWRC) retains copyright on all original articles published in the JWR, but upon request, will grant permission to reprint articles with credit given to the IWRC–JWR.

Submissions

All submissions should be accompanied by a cover letter stating the intent of the author(s) to submit the manuscript exclusively for publication in the JWR. Electronic submissions are required; hard-copy manuscripts are not accepted. The manuscript file should be attached to the submission letter (which can be the body of your email) and sent to:

Kieran Lindsey, Editor
jwr.editor@theiwrc.org

Manuscript

Manuscripts should be MS Word documents in either PC or MAC platform (no PDF files). Manuscript should be typed in Times Roman, 12 pt., double-spaced throughout with one-inch margins. Include the name of each author. Specify the corresponding author and provide affiliation, complete mailing address, and email address. The affiliation for all authors should be included in a brief (maximum of 100 words) biography for each that reflects professional experience related to rehabilitation or to the manuscript subject matter, rather than personal information. Biographies may be edited due to space limitations. Include an Abstract that does not exceed 175 words and choose several (up to 14) key words. Templates have been developed for the following submission categories: case study, technique (including diets), research, and literature review; authors may request a copy of one, or all, of these templates from the Editor (jwr.editor@theiwrc.org) before developing a manuscript for submission to the JWR.

Style

The JWR follows the Scientific Style and Format of the CSE Manual for Authors, Editors, and Publishers.
