

Going home checklist

Take a few minutes to go over your day.

How are you doing?
If you experienced a difficult shift, think about it and let it go. Leave it at work.

Remember that no matter what, you made a positive impact in at least one animal's life today - and that is rather cool!

Acknowledge your successes and challenges.

Check on your colleagues. Small acts of appreciation are quite powerful.

Transition. Go home, relax, rest. Focus on a deliberate transition from work to non-work, what ever gives you joy. You deserve it!
