Tucson Wildlife Center, Inc. (TWC) is located in Tucson, AZ and is currently recruiting a full-time Veterinarian.

Qualifications and Experience:

Doctor of Veterinary Medicine (DVM) maintains an active license in the state of Arizona in good standing or can apply for an Arizona license, and DEA registration.

A minimum of two years' experience as a practicing wildlife DVM is preferred.

Competency and Skill Requirements:

Knowledgeable of the wildlife care arena. Competency in assessing, diagnosing, treatment, surgery and prescribing medications. Developing and directing treatment and nutritional protocols for patients. Competency in mentoring volunteers and staff, with the ability to place an emphasis on rescue, rehabilitation and release. Putting human safety first is required.

Must understand and be able to work in the unique and challenging animal care environments year-round, day or night. Must understand and practice safety procedures at all times.

Excellent verbal, written and interpersonal skills, exhibiting professional courtesy and polite behavior, toward directors, staff, volunteers and the public at all times.

Electronic and hard copy medical data and records management required. Veterinary, medical and animal care policy and procedure development skills helpful.

Must be drug and alcohol free.

Efficient time management required.

Some off-hours, on-call time may be required. TWC is open 365 days a year.

Working Environment: Triage, radiology, laboratory, treatment, surgery, indoor and outdoor enclosures. Exposed to inclement weather, including but not limited to cold, rain and summer desert heat.
